**SUPPORTING STATEMENT
DOCUMENTATION OF FISH HARVEST
OMB CONTROL NO. 0648-0365**

A. JUSTIFICATION

1. Explain the circumstances that make the collection of information necessary.

NMFS issued a rule to implement Amendment 9 to the Fishery Management Plan for the Snapper-Grouper Fishery of the South Atlantic Region (FMP). This rule contains a collection-of-information requirement that dealers possessing red porgy, gag, black grouper, or greater amberjack during seasonal closures must maintain documentation that such fish were harvested from areas other than the South Atlantic.

During March and April, no person may sell or purchase a red porgy, gag, greater amberjack, or black grouper harvested from the South Atlantic EEZ or, if harvested by a vessel for which a valid Federal commercial or charter vessel/headboat permit for South Atlantic snapper-grouper has been issued, harvested from the South Atlantic. This prohibition does not apply to a dealer's purchase or sale of red porgy, gag, or black grouper harvested from an area other than the South Atlantic, provided such fish is accompanied by documentation of harvest outside the South Atlantic. Such documentation must contain:

- (i) The information specified in 50 CFR part 300 subpart K for marking containers or packages of fish or wildlife that are imported, exported, or transported in interstate commerce;
- (ii) The official number, name, and home port of the vessel harvesting the red porgy, gag, or black grouper;
- (iii) The port and date of offloading from the vessel harvesting the red porgy, gag, or black grouper; and
- (iv) A statement signed by the dealer attesting that the red porgy, gag, or black grouper was harvested from an area other than the South Atlantic.

The required documentation will allow dealers to sell fish which were caught from areas outside the South Atlantic during closed seasons.

2. Explain how, by whom, how frequently, and for what purpose the information will be used.

Law Enforcement Officers from the National Marine Fisheries Service will use the data when investigating the sale of fish during those periods when fishing is restricted.

3. Describe whether, and to what extent, the collection of information involves the use of automated, electronic, mechanical, or other technological techniques or other forms of information technology.

There is no improved technology. Record keeping is required to document the origin of fish being sold out of season.

4. Describe efforts to identify duplication.

There are no similar or comparable programs.

5. If the collection of information involves small businesses or other small entities, describe the methods used to minimize burden.

Most of the dealers in these fisheries can be categorized as small businesses. The collection will not have a significant impact on small businesses, and no special modifications of the requirements were considered necessary to accommodate the needs of small businesses.

6. Describe the consequences to the Federal program or policy activities if the collection is not conducted or is conducted less frequently.

There is no reporting frequency requirement for the dealers. Records are maintained and made available upon request by NMFS Law Enforcement Officers. If records are not kept either proper enforcement could not take place or dealers would be prohibited from possessing otherwise legal fish.

7. Explain any special circumstances that require the collection to be conducted in a manner inconsistent with OMB guidelines.

No special circumstances require the collection to be conducted in a manner inconsistent with the OMB guidelines.

8. Provide a copy of the PRA Federal Register notice that solicited public comments on the information collection prior to this submission. Summarize the public comments received in response to that notice and describe the actions taken by the agency in response to those comments. Describe the efforts to consult with persons outside the agency to obtain their views on the availability of data, frequency of collection, the clarity of instructions and recordkeeping, disclosure, or reporting format (if any), and on the data elements to be recorded, disclosed, or reported.

A Federal Register Notice (copy attached) solicited public comment on this submission, but none were received.

9. Explain any decisions to provide payments or gifts to respondents, other than remuneration of contractors or grantees.

No payments or gifts are provided.

10. Describe any assurance of confidentiality provided to respondents and the basis for assurance in statute, regulation, or agency policy.

There is no assurance of confidentiality provided.

11. Provide additional justification for any questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private.

No sensitive information is required.

12. Provide an estimate in hours of the burden of the collection of information.

The record-keeping requirement is expected to be utilized 100 times each year and consume 30 minutes for each. The total burden for this request is 50 hours.

13. Provide an estimate of the total annual cost burden to the respondents or record-keepers resulting from the collection.

The record keeping requirement is consistent with normal business practices and should not involve any additional cost.

14. Provide estimates of annualized cost to the Federal government.

There is no cost to the government.

15. Explain the reasons for any program changes or adjustments reported in Items 13 or 14 of the OMB 83-I.

This is a program change for reinstatement of an expired approval.

16. For collections whose results will be published, outline the plans for tabulation and publication.

No formal publications based on these collections are planned.

17. If seeking approval to not display the expiration date for OMB approval of the information collection, explain the reasons why display would be inappropriate.

N/A.

18. Explain each exception to the certification statement identified in Item 19 of the OMB 83-I.

There are no exceptions.

(i) May not possess red snapper in or from the Gulf in excess of the appropriate vessel trip limit, as specified in paragraphs (e)(1) through (3) of this section.

(13) include a description of the commercial, recreational, and charter fishing sectors which participate in the fishery and, to the extent practicable, quantify trends in landings of the managed fishery resource by the commercial, recreational, and charter fishing sectors; and

(14) to the extent that rebuilding plans or other conservation and management measures which reduce the overall harvest in a fishery are necessary, allocate any harvest restrictions or recovery benefits fairly and equitably among the commercial, recreational, and charter fishing sectors in the fishery.

97-453, 99-659, 101-627, 102-251, 104-297

On May 28, 2002, and in accordance with Section 325.10(c)(2) of the Regulations, (15 CFR 325.10(c)(2)), the Department of Commerce sent a letter by certified mail to notify N.B.
